

Password Cracking Lab Results

Stephanie Vergil

LAN Manager Screenshot

Paste your screenshot with the modified LAN Manager policy here:

John the Ripper Options

1. What option would you use if you want to use a dictionary file (word list)?

`--wordlist=FILE --stdin`

Wordlist mode, read words from file or stdin

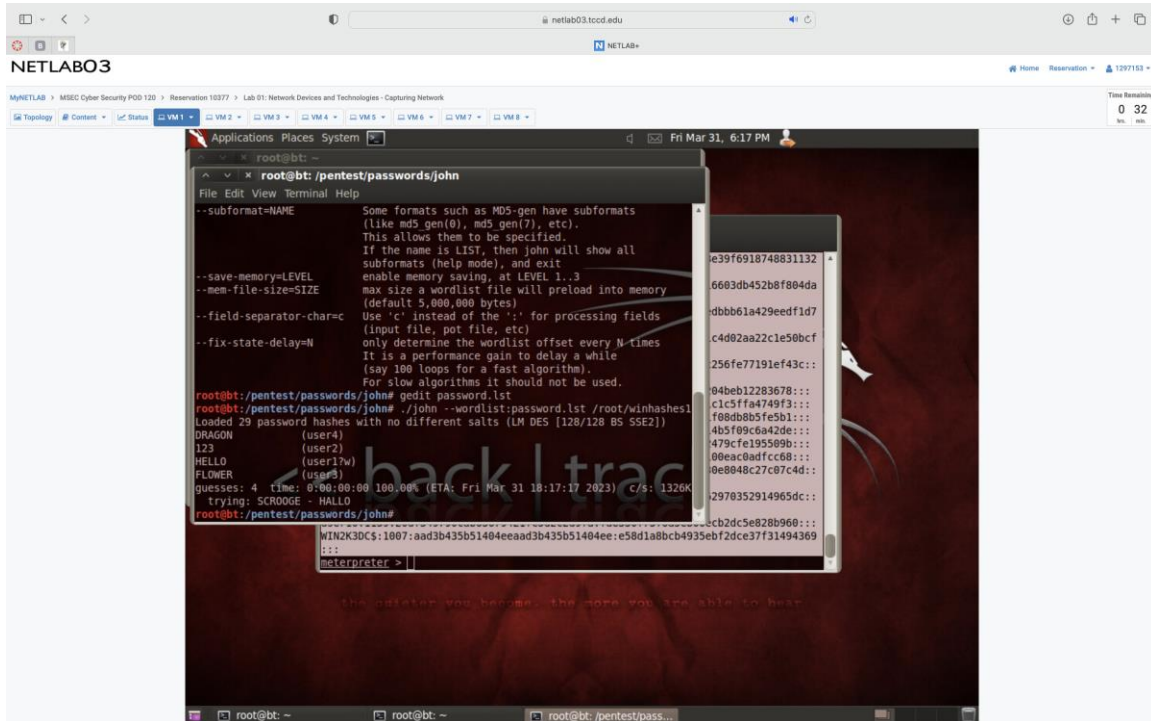

2. If you interrupt John while running and you want to continue where you left off, what option would you use?

`--restore[=NAME]`

Restore an interrupted session [called NAME]

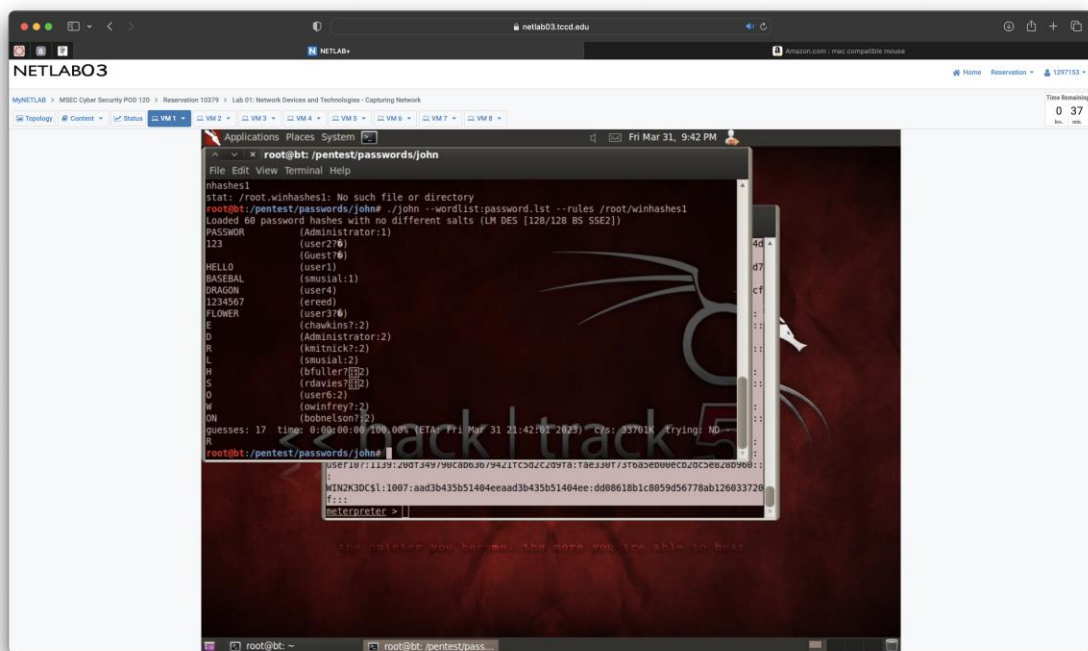

Basic Password Attack

Paste your screenshot with the passwords returned by the first password attack here:

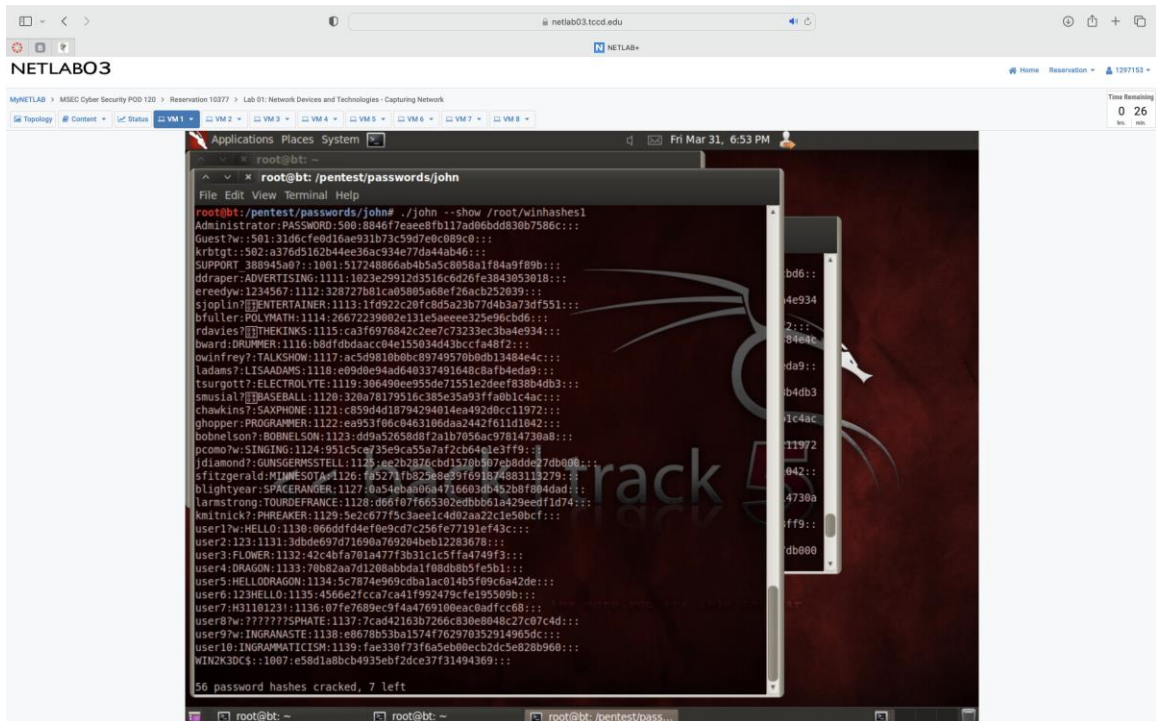

Hybrid Password Attack

Paste your screenshot with the passwords returned by the second password attack here:

Full Password Attack

Paste your screenshot with the passwords returned by the third password attack here:

```
